

You can use Remind.com to send an online reinforcement activity to Module 3 in MMG Unit 3 Lesson 3.

- Log onto your class' account at www.remind.com (or create a free online class account).
- Cut and paste the text below to either a text or an email message to students:

Today we studied keeping your cool when angry. Read the statements and answer the question.

- *Did you find yourself in a situation after the lesson where you became angry? How did you deal with your anger?*
- *If you did not get angry after the lesson, did you see someone else get angry? How did they deal with their anger?*
- *In either situation, was there anything you or person you saw get angry could have done differently, based on what you learned today?*

Text, email, or write your responses in your journal to share tomorrow.
